Refunds

When you return an item, your Amazon refund amount and refund method may vary. Your refund and how your refund is issued may differ based on the condition of the item, how long you've had the item, and how the item was purchased.

Refund timelines

After we receive and process your return, you'll get a refund according to our [return policy](#). Refunds can take up to 30 days, depending on:

- Order type
- Return shipping speed
- Processing time
- Refund payment method.

Declined Refund: If we can't use your original payment method (like an expired card), refunds go to your Amazon account balance. To check your gift card balance go to amazon.com/gc/balance

Refund types

You can use the [Online Returns Center](#) to return most items within 30 days of delivery for a refund. We'll offer a replacement or exchange order instead of a refund for selected items. For more information on exchanges, go to [Exchange an item](#).

Types of refunds are:

- **Advanced:** We issue advanced refunds when a carrier first scans your return, rather than when we receive and process it.
- **Declined:** If we can't use your original payment method (like an expired card), refunds go to your Amazon account balance.
- **Partial:** We reduce refunds for returns that are used, damaged, or missing parts. Find more details under [Partial refunds](#).
- **Gift:** Once we've processed a gift return, we'll issue a refund to the person who returned the gift. Go to [Return a Gift](#) for more information.

Possible charges following an advanced refund or replacement order

To avoid charges after receiving an advance refund or replacement order:

- Return items by the date shown in your return confirmation email
- Return items in their original condition only
- Use the correct return label
- Drop off your returns at approved locations.

If you don't return the item in time:

1. we'll send a reminder
2. if we don't receive the return, we'll notify you and charge your account for the advance refund or replacement
3. once we receive and process your return, any charges will be reversed.

Refund processing times

Your bank might need extra time to process a refund. The refund timelines for different refund payment methods are:

Refund Method	Refund Processing Time
Amazon.com Gift Card	2-3 hours
Credit card	3-5 business days
Shop with Reward Points	Up to 5 business days
Debit card	Up to 10 business days
Checking account	
EBT card	
Cash (at a participating location)	
Pre-paid credit card (depending on the issuer of the card)	Up to 30 days
Your card is stored on your account for future use, even if you don't have the physical pre-paid credit card.	
Promotional certificate	No refund issued

If you returned your item more than 30 days ago, and haven't received any refund notifications, contact [Amazon Customer Service](#).

Partial refunds

All returns are inspected against the expected item and refunds are reduced for signs of:

- Customer use
- Damage
- Missing parts, accessories, or manuals.

For currency-converted orders, we refund in your local currency at the original exchange rate.
